About I've started in/at the bottom of a food chain as a Engineer in Master Control Room team. After a while I changed it to being a *secretary* of a Network Squad Product/Owner. As time pass by, I learned that my laziness have different meanings: Network Automation and DevOps. From that day, I'm trying to tell everyone around me why and how to do it.

Skills	Python	DevOps	Network	Tools
	requests	StackStorm	Palo Alto Panorama	PyCharm
	netmiko	Git		PowerShell
	napalm	Azure DevOps	Palo Alto Firewall	Bash
	click	Ansible		RHEL
	rich		Cisco ISE	
	pandas	Docker	Cisco IOS	
	pydantic	GitHub	Cisco NXOS	
	jinja			

Exp	Automation	Development	Application
	Design, implement and maintain solutions such as: <ul style="list-style-type: none">Automatic incident resolution on network devices.Automated patching of various network devicesSource of Truth database with data distribution to dependent entities.Simplify and shorten the complex process of gathering, merging and analyzing data from many different sources.	<ul style="list-style-type: none">Develop and maintain tens of Python packages, following CI/CD standards.Train, guide and mentor cowork colleagues in Python and network automation.	Introduce and maintain an open-source orchestrating application StackStorm: <ul style="list-style-type: none">Placed on OpenShift. All Docker images build and delivered via Azure Pipeline.Components RabbitMQ, Redis and MongoDB deployed and maintained using Ansible Playbooks.Develop and maintain workflows.
